

# Lesson Plan

## AI & Machine Learning Basics

INSTRUCTOR

Alex

DURATION

45 Mins

### Objectives

---

- Demystify neural networks and deep learning.
- Explore practical applications of AI in SaaS products.

### Schedule

---

TIME	ACTIVITY
00 - 15m	Concepts: What is a model? Training vs Inference.
15 - 35m	Demo: Interacting with the Gemini API.
35 - 45m	Discussion: Ethical AI use and data privacy.
